Description			
<i>Provide a short description of the event and its activities.</i>			
<p>At the beginning of July, 3 artists from Graulhet went to Prien to create this fresco on the wall of a building dedicated to youth. Its inauguration and unveiling to the population of Prien on August 25, 2023, in the presence of an official delegation from Graulhet, made up of 10 people, thus closed the festivities of the anniversary of half a century of friendship. This official reception, in the presence of many friends of Prien, once again testified to the old and deep friendship that exists between our two cities and was marked by very strong emotion.</p> <p>The Graulhet delegation received as usual a warm welcome, and experienced real moments of sharing. On the agenda for his stay: visits to the island of women or men and opening of the beer festival in Rosenheim.</p> <p>Graulhetois and Priennois parted with regret, but with the desire to continue and maintain this friendship which has lasted for over 50 years. With in perspective, a meeting given in Graulhet in 2024!</p>

**DESCRIPTION**

Those two artpieces, on the same principles of inclusivity and sharing, have been produced in Graulhet and in Prien am Chiemsee, on a wall of a youth center in the beautiful Bavarian town at the end of the year.

The products used are environmental friendly. A unique and innovative project for the two cities!

The cities, thus “united in diversity” will beat on the same rhythm of European values, inscribed for all to see at the heart of the public space. These values of safeguarding peace and freedom, which should be shared between generations, between peoples, between states.

By participating in this fresco, the participants honored their quality of citizen, consecrated, for adults, and in the making for the youngest. This citizen participation, in the sense of informed and argued individual and collective expression, is the principle of these frescoes, the very essence of twinning and the heart of our duty as Europeans. An excellent way to strengthen the feeling of belonging to Europe, as an informed and committed citizen. A way also to promote debates around how to create a more democratic union
